

VMCM Monthly Newsletter

October 2005

Welcome Nadya!

On the 10th of October in the centre came the new EVS volunteer Nadia. She is 25 years old and came from Bulgaria. "I feel very welcome here and everybody is so nice and friendly. In the Velky Meder Centrum Mladeze I hope I can find new friends and to make for interesting, funny and useful events for the kids here. Also I really like the town, there are very beautiful houses and also I can find different activities for my free time – I can swim, ride a bicycle or I can travel to near bigger cities" said Nadia when she arrived. She staying in Velky Meder for a year and she will teach English in Children school and help for different activities in the centre.

"It was very useful at the start of my staying in Slovakia I attended a training in the city of Ružomberok. I met other volunteers there and made some good friendships . Also I know more about the EVS program and got some ideas for my work" said also Nadia.

Game show

From this month two games are new attraction for the kids. Brand new and colorful basketball equipment allows the wonderful game to be play inside, not depends

of the weather outside. So they can try to be like the "aliens" from NBA in the winter too.

The other game is a challenge for the hands and mind. The darts game comes from the country of Robin Hood but now is popular in the whole world. In VMCM we are going to make darts competition in November and if the kids like it we will make it traditionally.

Pop, cinema and fashion

In October another tradition was rebuild in Velky Meder Centrum Mladeze – our newspaper and magazines library. We started buy some most popular teenager magazines like BRAVO, POPCORN and IM. Everybody can read them and to know the news in glamour world of music, movie and fashion. Some of the most popular and lovely stars already have got their own place on a wall in the centre.

Halloween party

On October 29th we made our traditional Halloween party. It's hard to say anything about how much we enjoy and laugh so let the pictures talk:

Projects

We are still looking for new partners for the new “summer” project for which we have to apply until the first of February at the European Union. As a result of this we could travel to a foreign country with our volunteers and gain unforgettable experiences again. Poland applied for this. They supposed to have the answer until the 15-th of December from the EU.

This is also interesting for us because we could become partners like Macedonia, Serbia, Portugal and Albania are.

We are also looking for another foreign volunteer who could arrive in April.

Thank you for reading this script.

Nadia, Rita
