

# VMCM Monthly Newsletter

July 2006

## Summer work

Since the beginning of the month we have got new stuff members in VMCM. First, like the last summer here is Palfy Eve, who is working with Nadia, when Tibor and Judit aren't in the place. She is very joyful and friendly person, so it's easy to work with her. Also she can speak English and Slovak language very well, so she helps Nadia a lot when here are foreign visitors (mostly tourist in the town). Eve also

took a part in the preparation of the birthday party on 1<sup>st</sup> of August and other activities we've got this month, so we're very glad having her on the board this summer.

Also here is our new "cable guy". He's name is Feri and he's 18 years old boy from Udvard (Dvory nad Zitavou). He's spending the summer vacations with his relatives in Velky Meder and during it

he'll work in the centre helping with the administration of the computers. He's very skillful. Since he's here the condition of the

computers is better, he also fixed the cameras in the centre and the big print machine. But Feri is also very friendly boy and fastly became friends with us and the visitors. It's really good to have him with us.

## "Draw me a sheep!"

Summer season is always full of fun. It's the time when everybody is feeling free and ready to do extraordinary things. Just like our volunteer Nadia. :) One day she came in the centre with hands painted with henna tattoo. It was a bit strange but it seems a lot of people like

it, so soon she made a "henna tattoo day" painting some of the visitors with the names of the favorite music star, Chinese yeroglip version of their names, flowers or animals. Henna tattoos are

good way to be different and have some fun...and they stay only for couple of days, so nobody can have troubles with angry parents :)

## Tourists place

Most of our regular visitors are somewhere on holiday trip with their parents or friends, or they are working in the town's most popular place - Thermal bath. Therefore we decided that

**internet cafe VMM**

40.- Sk / hour in the center of the town  
behind 'Jednota'

**Open hours:**  
Every Day: 15.00 - 21.00

there is another way to stay busy and be useful for somebody. Being a very nice place with good internet connection on the best price in town, we decided to "invite" the tourists. During the summer the town is full of foreign people, who need to have connection with their home. We made small commercials and put them in different places in the town. And we're glad that our idea was successful. So now everyday we've got people from Poland, Italy, Germany, Check republic etc., who are checking their e-mails and chatting with their friends.

### The way to Macedonia

Altogether with the regular work in the centre

Nadia and Joanna from Portugal on the APV in Macedonia

this month we were busy with preparing for the youth exchange project in

Nadia was very excited about it when she came back. She said that she expected really interesting activities and also that it will be possibility to meet a lot of people from different countries. It was also very important for us to choose good participants which will be interested in the topic of the project "Art - our common language". We talked with the directors of the schools if they can propose us some youngsters; we also spoke with people we know and with our friends from the cable television. It was a hard choice but at the end we choose 6 very skillful and interesting people: Matlak Barbara, Kovats Erika, Monozlai Flora, Cséfalvay Ádám, Csiba Máttyás and Németh Dávid. Those kids should go with Nadia from 3<sup>rd</sup> till 13<sup>th</sup> of August in Macedonia to represent centre in the best way© More about their experience you'll know from our next newsletter.

Macedonia. First Nadia went on an Advance planning visit in Skopje, where she met the other group leaders from Albania, Macedonia, Poland, Turkey, Serbia and Portugal. The aim of this meeting was to discuss the program of the exchange in August and to agree about the activities.
