

VMCM Monthly Newsletter

August 2006

Happy
Birthday VMCM!

A lot of people, competitive and funny games, strong tension, good music and party mood could be catch in VMCM on 2nd of August. The reason? Our second birthday.

We've prepared this event for 2 months, because we really wanted to make something remarkable. Actually the idea was to go outside and to make a bigger party in front of the centre with more games and competition, but unfortunately the weather wasn't on our side. Anyway we've got a lot of fun. We made small skateboard race, competitions with running eggs, fast eating competitions and table-football competitions. In the photo gallery below you can see some of the nicest moments from that day.

ART OUR COMMON LANGUAGE

This month six of our members had the chance to participate in youth exchange. It took place in Macedonia from 3rd to 13th of August and included 6 other countries. More about it you could read in the special reportage which Nadia sent before, here we just post some more pictures.

PLAY STATION IS BACK

One favorite attraction has found it place again in the centre. After around a year we've got a new Play Station game. The much beloved Tekken, Gateway and Primal are again in use and we're getting more and more visitors, who would like to play them or other games. We know that *adventures* in the virtual reality will make happy a lot of kids in Velky Meder, specially the ones with fewer opportunities, who can't afford to have it at home. In the future we're thinking to organize also some virtual tournament.

Team Work

Few days before the new year in the schools starts, our manager Bial Judit has made some important meetings with the headmasters of the schools in Velky Meder. They discussed the ways of cooperation and contribution for the both sides. They've considered that we could be a lot useful to each other working together in the youth projects topics, organizing different events and providing more interesting and valuable environment for the youngsters in the town. We hope those meetings put the begging of a really good teamwork.
