

VMCM Monthly Newsletter

October 2006

Cooperation with local schools

The new school-year has begun in September, when Judit had some very important meetings with the headmasters of the local schools trying to find new ways of cooperation. We started again with new hopes, new wishes and new plans...

...and now, in October we can see the "fruits" of our effort: we had some kids from the secondary grammar school, who spent some nice time in our center. We hope, they will come more frequently, from the other schools too!!!

Table-tennis trainings in VMCM on regular base

Everyone knows, that sports are really important, because we do not move enough... Since Tibor has the same opinion, from

beginning of October we have table-tennis trainings in VMCM on regular base! As you see, the kids really like it!

They have to train a lot, because next month they will have a chance to compete in table tennis!

...Searching for new possibilities...

In October we were really searching: here, at home, and also abroad!

Judit and Tibor went to France for a **Contact Making Seminar**. This seminar was really successful, because they have met plenty of people from different corners of Europe, who were representing their organizations. This way they find good

contact for the future to make Youth exchanges, voluntary services, etc.

All of these are mainly financed by the European

Union, but to maintain the VMCM **we need more sponsors**, so we were searching for new sponsors too.

Good bye and good luck!!!

...and some bad news: this month was the last working one for **Nadia**, for our volunteer. She left at the beginning of October, because she

could spend in our center only one year.

We wish her good luck and a lot of success in the future!!!

New volunteer is coming!

Of course we do not want to be without volunteers, so **Morten Nielsen** will come from Denmark from 1st of December. Some of the kids already know him, because he spent some time in our center in the past... We are waiting for him.
