VMCM "Triathlon"

We arranged a VMCM Triathlon, where the kids competed in 3 different events. First they competed in

darts, then table tennis and the last event was billiard. The top 3 got a small prize. The kids really liked it, and followed the scores with great interest.

Small ZOO in VMCM

As a new event we held an "Animals day" at VMCM, where kids could bring their animals to show it to some of their friends and to the other people who brought their animal too. Many kids seized this opportunity to show their animal, and a total 22 animals showed up. There was a wide range of different animals present like dogs, cats, chinchilla, but also guinea pig, running mice, jumping mouse, dancing mouse, hunting skunk, snake, etc.

We had a dog, which took care of 3 small cats, A small doggy, which wanted to play with the biggest cat... A nice red snake, and so on.

All in all it was a big success, and everyone was happy, because they could stroke them, and since we were asking every detail from the owners, we also learnt a lot...

Girls are dancing...

As you know a few guys recently started practicing break-dancing in our small activity room. Now the girls want to do the same. A few girls are now also practicing dancing. So the room is often occupied. If it will be like that, we will have to make a schedule, but of course we are really happy with it!

Baranta

We are interested not only in dancing or animals, but also in martial arts... So we invited a small group from Dunajska Streda, who made a nice and interesting "show".

Baranta is a martial art that involves both armed and unarmed techniques and is based on the martial training forms of the old Hungarians.

A group of people, who practice in these techniques, came to demonstrate Baranta to the kids. There might

also be a possibility that they could teach this in VMCM...

We are waiting for those, who have interest!
