

# VMCM monthly newsletter

December 2007

## Waiting for Christmas:

The Christmas in VMCM brought also a wonderful atmosphere in the place. At the beginning of the month we did a very nice Christmas decoration

The kids made a really beautiful decoration with Christmas tree, snow on the window and lights. It is true, that we had some problems with fixing the Christmas tree, but our new volunteer, The kids were really happy with decorating our centre, as you can see on the pictures.

## Bogi's birthday

One of our youngest members Bogi (became our member when she was 3), turned 7 on the 8-th of December held her birthday party at the center. 10 kids attended the party. Started with the usual present giving. Than the violin shaped big birthday cake followed. After eating and

drinking the real party started with singing, dancing, a drawing competition and all kinds of games led by our staff members. At the end as the parents were flowing in to pick up the children the truth is that nobody wanted to go home. Unfortunately because of their young age they couldn't stay too long so the game had to be over.

## Table tennis competition

The so called "rotation" table tennis game is very popular game at the center. Therefore we decided to organize a competition at this "sport". It was quite crowded around the table. 10 children were walking-running around the table trying to keep the ball and themselves in the game. It was much fun especially for the winner Rajmund Pifar who proudly received the internet, billiard and playstation bonus as the 1.prize.

## Table football competition

1 day before Christmas a table football competition took place. 8 players were fighting for the first prize which was an original Manchester United t-shirt. Because of this the competing mood was on high level. We saw excited children fighting eagerly but fairly to reach the best result. At the end the happy winner was Mate Kulacs. Him being a football player we thought the prize went to a good place.
