June 2008

Billiard competition

As you all know – the kids at VMCM are almost professional billiard players :-)
we all are waiting some day some men from the TV channel Eurosport to come to the center and offer us to show how our kids play this interesting game :-)
That's why we often organize a billiard competition for them. As usual in June the interest was extremely big so a lot of our young visitors took part at that competition. Of course the Winner can be only one –and it was Stojka István.

Strong man's day

Who is the strongest man at VMCM center? This is such a tuff question. But one day Tibor decided to check it out.. He made a big competition with the boys which are visiting the center. The guys showed they physical abilities in 4 competitions.

The competition was very hard, but interesting, so a lot of boys took part in it.

Weightlifting, high jump ,long jump, competition in abdominal muscle exercises – this was the challenge for the competitors. They all did great. But at the end only one won and of course he took a great price. See ya at the next competition, strong men:)

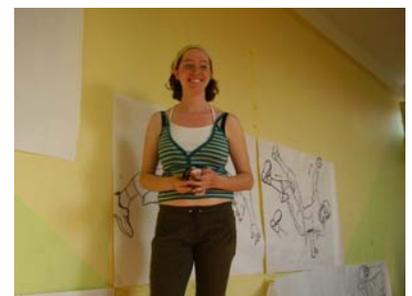

Decorated mirror room for the break dancers - by Cristina and the girls

Did you hear the NEWS? We at VMCM have our own Michelangelo – our EVS volunteer from Italy starts a big project – which will stay

in history just like the [Sistine Chapel](#) in [Rome](#). Cristina starts to decorate the mirror room for our breakdancer. An interesting fact is that she is using a pictures of our breakdancers so she will paint the walls with their faces and specific breakdance moves. Of course like every Renaissance artist she has a lot of helpers – some of our regular visitors - a few girls starts to help her.

But not only Cristina is acting like a person from the Renaissance, like a real Pope Judit always asks her “O, Cristina when you will finish with the painting?”

And as a real Michelangelo Cristina answers: “I will finish when it will be finished:~)”

VMCM Euro 2008

Emotions and passion – we all felt it during the Euro 2008. But not only people at the stadiums were excited of the game. Here at VMCM we made our own mini Euro 2008 on the Play Station. Divided by

4 groups, just exactly like on the real tournament, all the kids have the opportunity to chose a country and play with it till the end of the VMCM Euro 2008. A lot of emotions, football passion, fun and shouting – just like the real life – this was our competition which attractted a lot of kids – girls and boys.

sad, but reality: Helly is leaving us

“Every good thing comes to the end”

One year just pasted. One year - shorter as a blink of the eye and longer as a lifetime. Soon or later everything comes to the end and the end of june was the time when we all say good bye to our volunteer from Bulgaria – Helly. Most of the kids were sad days before her departure, but Helly also was sad. “Here at VMCM and Slovakia I spend the most amazing year in my life. I felt like child again, I found so many friends, I explore this beautiful country, learn so many things about myself and the people around me” - said Helly days before to leave Velky Meder - “I’ll never forget my second home and I hope soon I’ll be back”

We all hope that she will back to see us and our friendship will never end.
