November 2008

Big-big interest for Table tennis: two tables needed

For a long time Tibor was planning a table tennis competition! No one thought that it would get that famous like it was! A lot of children, younger and older, came to play! So much people playing one day- that never happened. The interest of the youngsters were so big that we had to bring our second table for it! Also this one was full like the first one! After some days trouble at work we found the three winners! The prizes were some VMCM money which they could use for internet, Billard or Play Station at the Centre! The best prize- a table tennis racket was waiting for the best table tennis player of VMCM. After this competition we were not able to bring the second table away! No, the interests for playing table tennis are still that big!

Alex and the English lessons

Alex is going on with her English lessons! The five boys from children's home have a lot of fun in learning about the topics Alex chose. Until now we talked about the human body, members of the family, numbers, dates (how to say the date of a day, the 4 seasons, names of the month and the days a week). All in all teaching is a lot of fun to her, even if it is quite difficult to explain, only with knowledge in English and German. But there are other ways to solve that problem. Also repeating a lot helps the children to understand it better and to keep everything in mind!

German and English coaching-lessons

One day, Alex had a good idea. She wants to make coaching lessons in english and german for children who learn these languages at school and have some problems. Of course she doesn't want to do their homework or referats. Always she sais that it is important to her to make the kids understand and solve their problems, just with her help! Soon we will start to make the placats for this offer and bring it to the schols in Veľký Meder.

Another European Football Championship

In the end of November we also started with another European Football Championship. The kids were happy about this and everyone asked to take part! Eeryone got a country he or she is playing for! Now our Play Station will be the most famous part of VMCM, because there we make the Championship (of course, in this cold no one wants to play outside. The first games started already but like in real football-life it will take some time. But of course in the next Newsletter you will read a big report. But ont thing wecan say: Alex is making a lot of stress to Tibor because he plays for Germany, we will also see what she did to him.

Wall for EVS

Last 4 years VMCM hosted many kind youngsters. At the beginning for the kids it was a bit strange, but after a while they got used, that peaplo are comming and leaving. Of course we dod not want to forget them, so we planned to prepare an „EVS wall“ for them, and to everyone to remember. It is not ready yet, but we have really good ideas!
