June 2010

Children's day

The first of June is the international children's day and like every year VMCM made a big party for all the kids. We celebrated on the 4th of June and luckily the weather was nice and sunny, so we could make a lot of different games and competitions outside.

We were making games like water-race, a jumping competition, balloon fight or a football dribbling game. A lot of kids (more than 35!) participated and everyone had huge fun and enjoyed a very nice day. Of course all the participants got some sweets and everyone is already looking forward to the childrens day celebration in the next year J .

Palacsinta

Also during the childrens day we made another cooking day. Judit and Betty had to work hard during some hours to make enough Palascinta for everyone, but it was delicious.

Julcsi helps us

In June VMCM got some more help, because Julcsi, a 16 year old girl from ... came to work with us and help in the center for 2 weeks to get to know more about the work in a Youth Center. The kids liked her immediatly, because she is a very nice and smart girl and also a very good folk singer J .

Celebration a little earlier...

VMCM is going to have its 6th birthday in july, but we decided to celebrate it already in the end of June, so that Johan could still be there. For this year we were lucky to have Julcsi working with us in this time, because she has a folk band from Hungary, who was willing to play for the VMCM birthday party.

We also made a traditonal Hungarian „Tacschaz“, so that we were learning some folk dance in a circle also.

A lot of kids came for this event and danced together. We also made sandwiches for everyone and there was a big and delicious birthday cake, so that the birthday party was a great success and full of fun and joy for everyone.

Johan will go home L

Unfortunately the very last day of June brought a very sad occasion: our French volunteer Johan finished his EVS and went back to France. He spent a whole year with, but it seemed to be much shorter, because everyone had an amazing time with Johan. He had a great relationship with all the kids and the VMCM team and he had lots of ideas for activities and very open minded and became a great friend to all of us.

He was not only popular at the centre, but had a lot of friends in Velky Meder, so that the whole town is already missing him, but wishes him good luck in France and we really hope to see him again soon.

We will definitely not forget him!!!!
