

# VMCM Monthly Newsletter

**July 2010**

## Big EVS News:

- End of June: **Johan** left
- Nowadays: **Esther** is still with us J
- End of June: **Cristina** visited us
- Beginning of July: **Fernando** arrived
- August: **Tim** will come soon...

Can you still follow the events?!? J

## About Fernando...

At the second of July Fernando from Spain arrived to us. He will be spending one year in VMCM and in his first month he already managed to get a good connection to the children, because he's very friendly and open-minded. Also the children have a lot of fun helping him to learn Hungarian, which he started right from the beginning. Everyone is looking forward to the next year with

Fernando.

## Football championship at VMCM

Of course the Football World Cup which was ending in July was the most interesting topic for the children in this month's beginning. Therefore VMCM made a huge game-betting-contest, of course it was for free, and the winner was to win an original trikot of Brazil. So day by day everyone was guessing what the next game's result could be. By the end of the world cup, Johan could make the first price, followed by Esther and Bogi.

## Feri came to repair the computers...

Its a tradition by now, that every summer Feri joins the VMCM team for a few weeks to take care about the computers. Year by year it becomes more tricky, but still Feri managed to save some computer lifes. On top of that, also the kids are were happy to see him again and play ping pong or do puzzles with him. Still we can happily announce the arrival of brandnew computers for the next monthJ.

## We will go to Hungary for a youth exchange

We got more exciting news in July: Finally VMCM will take part in another international youth exchange in August! It will be a great chance for 5 children and our volunteer Esther as a leader to go to Hungary for 12 days and meet with youngsters from other countries.

All the best from the V MCM team J
