August 2010

### Új Szó about VMCM and EVS:

## Önkéntes szolgálatra várják a fiatalokat külföldön

2010. augusztus 10. kedd, 17:00

„Nagymegyer. Remek lehet séget jelenthet a Nagymegyeri Ifjúsági Központ által kínált önkéntes program azoknak a fiataloknak, akik még nem találtak munkát, vagy még nem sikerült eldönteniük, melyik pálya lenne számukra a legmegfelel bb.“

At the beginning of August an interview was made with Judit about VMCM and mostly about volunteering (EVS). We hoped, it can help us in the future to find more youngsters, whom we could send abroad for volunteering, but we would never think, that one week after the article appeared, a young girl called Judit, that she would like to become EVS volunteer... We really hope, there will be even more youngsters, who would like to try this excellent experience!

### TIM has arrived - Krisztián has left J

If something works really well in the VMCM, than it is the EVS. I think, we can say, that we were really lucky with hosting fantastic volunteers from whole Europe, and sometimes we could also send someone...

In the middle of August Tim arrived from Germany, and at the end of the month Krisztián went to Hungary to be EVS volunteer there.

### Youth Exchange in Hungary at Égervölgye Camp

About comics...

...With our "old" partners

It was an ordinary day, when we went to Hungary. But, after the unexpectedly wonderful week there we realized, that it was the time of our life.

We lived in small, familiar camp, which was like a typical camp resort. Old buildings were filled with the smell of woods. The camp was full of tents, football courts, it has a dining room and a big-big yard. The camp is situated near Miskolc – a bigger city in

Hungary – in valley. It was an interesting thing, because everything was wet all the time. Even the temperatures were so high, our clothes never got dry.

There were four groups: the Hungarians, the Slovaks, the Lithuanians and the Belgians. It was a really good collective. The team work went so easy, we totally understood each other from the first moment till the last.

By the way, the project was Turn Eu into Comics. It was the idea of the Hungarian group, they were the hosts of this exchange. We did several things during the week: performances, drawings, comics, introductions, energizers, city games etc... I never felt, that we are doing something because it is obligatory, contrariwise I wanted to attend each program. It was a well organized exchange. We visited some natural unique creatures, for example, the famous caves next to Slovakian borders, Aggtelek. We showed or spontaneity, when we realized, that the guide is missing, so one of use took the lead and translate all the interesting facts about the cave. First, it was a little bit hard, but after few sentences it was more funny and easy.

Our leader, Esther – she was a youth worker from Germany – has really good leading skills. Now, she's at home in Berlin, and we really missing her. There were moments, which connected us – at least I think – forever.

We were really sad, when we said goodbye to the others. It was painful, but we made a decision: we are going to meet next year! At the same time, at the same place, with the same people.

### New dancers

The mirror room of VMCM is really loved by dancers. Some new faces appear time by time to ask us, if they can practice there. Of course we are happy to have more and more kids and youngsters around!

So this was the way how we have spent summer holiday...

Kind regards from VMCM team! J
