September 2011

New volunteer in VMCM!

From 1st of September the VMCM has a new volunteer again! **Borja Barrado** came to us from Spain, from San Sebastian; he is a Basque boy, who likes children a lot! He is 26, and will stay with us a year.

Drum lessons

Last 7 years we had many things in the VMCM, but still not everything. Since Borja is with us, we have drum lessons! Of course it is very loud, we again make a big noise, but the kids really like it!

Youth Exchange in Poland

We are very happy, because we had the possibility to send 5 boys to Poland for a Youth Exchange through the program "Youth in action". In this exchange 5 countries participated: Greece, Slovakia, Spain, Romania and Poland, and the youngsters had the possibility to learn about volunteering. This they wrote about the project:

"We met a lot of new people from different cultures during the project.

The project was held in Poronin, Poland. We had a lot of sport activities during the project, which made us a strong and well cooperating group. It was a good opportunity to express ourselves in the process of informal education by taking part in a group workshops and discussions. The project showed how joyful and uplifting can be a volunteer project. We learned, for example, about different opportunities of helping other people, who have lost their houses, friends even family in a natural disaster. We would like to thank the sponsors for the opportunity to take part in this project."

3D Drawing... Dancing... Decorating...

Since we do not want to be noisy all the time, but really want to have fun, sometimes we are dancing, sometimes drawing and decorating the centre.

We only have one fear: if we continue like this, the walls will not be enough for us... So we will have to organize an exhibition... J
