

# VMCM Monthly Newsletter

**October 2012**

## **New volunteer in VMCM!**

From 1<sup>st</sup> of October the VMCM has a new volunteer again!

**Spela Novak** came to us from Slovenia, She will stay in our center for 10 month. Spela's first weeks were about getting known to the town, the children and about settling down. But we can say that so far she has been very impressed by our center, the town and the people. She has already participated in the on arrival meeting in the High Tatras organized by the national agency so she had the chance to exchange her first experiences with the other EVS volunteers in Slovakia.

## **72 hours without compromise**

- In cooperation with the local scout organization we participated as a hosting place for the 72 hours without compromise global scout program. This project helps to improve living conditions, human and ecological situations via the realization of specific actions.

The little scouts and the leaders by using our building and our computers have connected the wifi - how to use the internet - scouts. They were also teaching the youngsters how to use the Internet.

## **Pyssla design**

We have to mention the Pyssla fever this month among the children. With the supervision of Spela and Julie children made a lot of interesting things from these simple beads which we bought in Ikea. These small, plastic beads can be used in developing fine motor skills for younger children and it's a lot of fun for older children too. We placed the beads onto the pegboard, one by one to create a design. After we placed a piece of ironing paper over the finished design and ironed it afterwards.

## **Halloween party**

We can call it the scary holiday or the holiday of jokes and fun in our center. This month we started it with the preparation of ugly masks and with the decorating the center. The real fun came in the evening when we played the usual frightening Halloween games ....
